

Science

What are they

fact

hypothesis

natural law

theory

scientific model

Statement about

the natural world

all

The earth is flat

a fact

all could see

A working hypothesis

disproved

maybe

Newton's law of gravity

wrong

sometimes

Theory of relativity

true

as far as we know

Improving models

predict weather

better-and-better

Evolution

only a theory

law of the jungle

fact

details

understood

more-and-more

All is

tentative
